

1. It's almost time for parent teacher conferences. As in the past, the office is using an online sign up system. Please see the link below and sign up for the time that is most convenient for you. However, night spaces are limited. Please do not take a night conference unless it is absolutely necessary. Only one conference per student as well.

** If this link does not work, you may go to the school weebly and use the link there.

2. I'd like to thank all parents who volunteered to chaperon for our field trip last week. It was a great trip. A HUGE thank you Tom Lupo and Kelly Kohl for stepping up and filling in at the last minute.
3. I would also like to remind parents to please help your child stay up to date with their work. When students don't complete work on time, it puts them behind and as we move on in class, they are not able to keep up with the skills. The skills students learn today are the foundation for further academic success.
4. Lastly, many of the students still do not know their multiplication facts. This is slowing them down with multiplication of larger numbers. Please encourage your child to practice. Driving in the car is a simple place to practice facts and I have many websites on my weebly that can be used as well.

Have a great week and please contact me if you have any questions or concerns.
